aaa-abatement.com

AAA Abatement LC is a minority-owned, Hispanic-American small disadvantaged business delivering **EPA-, HUD-, OSHA- and NESHAP-compliant** lead & asbestos abatement and environmental remediation across New England and the federal market. As a **named subcontractor on the U.S. Coast Guard SFLC Lead & Asbestos MATOC (IDIQ)**, we self-perform abatement on government sites — and through our **Sponge-Jet® teaming partnership** add SSPC-SP11 vessel and waterfront surface prep most abatement subs can't deliver.

CORE COMPETENCIES

- Lead paint abatement & deleading
- Asbestos abatement & removal
- Environmental remediation
- Selective & pre-demolition
- SSPC-SP11 surface prep (teamed)
- HUD lead-program compliance
- Confined-space & hazmat work
- Hydraulic-system-safe (LOTO)
- Lead inspection & RRP
- Containment & decontamination
- Waste manifesting & disposal

★ DIFFERENTIATORS

- On an active federal IDIQ** — named lead/asbestos subcontractor on the **USCG SFLC Lead & Asbestos Abatement MATOC**; task order completed with **positive past-performance references**.
- Confined-space & machinery-space abatement** — the most demanding lead/asbestos scope; we work ship machinery spaces, tanks, and tight federal environments others won't take on.
- Surface-prep teaming** — Sponge-Jet partnership for SSPC-SP11 vessel & steel blasting, closing the equipment gap.
- Diverse & certified** — Minority/Hispanic-American owned, SDB self-certified, MBE/SBE; helps primes hit diverse-spend goals.
- Mid-Atlantic vessel reach** — federal vessel work in **NJ, PA & MD** under OSHA 1926.62/1915.1025 (no state cert required); Curtis Bay/Baltimore experience.
- Local to the Northeast federal corridor** — New London/Groton CT + Springfield MA; fast response, low mobilization.

PAST PERFORMANCE

★ OUR FIRST FEDERAL PROJECT · U.S. COAST GUARD SFLC MATOC (IDIQ) · COMPLETED
CLEAT Task Order — New London, CT (2026)
Lead & asbestos abatement aboard CGC **CLEAT** — a task order under the USCG SFLC Lead/Asbestos **MATOC**, a **\$24.9M multi-award IDIQ program** — completed to spec, full waste manifesting, certified personnel. **Positive past-performance references available** from the prime and the government.

U.S. COAST GUARD · IN PURSUIT · COMMERCIAL / RESIDENTIAL
Groton, CT | \$215K Plainfield CT | \$30M Framingham MA sub-bid
Active USCG pursuit in the Groton/New London corridor, plus multiple MA/CT lead & asbestos projects.
